Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Michael Spinka)

CONGRESSIONAL SERIAL SET VOLUME 3443

General Books LLC. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1896 Excerpt: . . . *Frenelopsis Gracilis* Newb. n. sp. Pl. XII, tigs. l-3a. Branches numerous, long, slender, simple or remotely forked, set at distant intervals with small scale-like leaves spirally arranged. I have referred this interesting plant to *Frenelopsis* with some hesitation, but it seems nearer to the living genus *Frenela* and its fossil ally *Frenelopsis* than to any other conifer with which it has been compared. The tree, when living, with its numerous slender, cylindrical branches, of which the leaves were invisible, must have had the general aspect of the broom, the tamarisk, *Canotia holocantha*, and most of all of the *Ephedras*. Locality: Woodbridge. Coniferae of Uncertain Affinities. *Thinnfeldia Lesquereuxiana* Heer. Pl. XI, figs. 1-17. *Thinnfeldia Lesquereuxiana* Heer, Fl. Foss. Arct. , Vol. VI, Abth. II, p. 37, Pl. XLIV, figs. 9, 10; Pl. XL VI, figs. 1-11, 12a, b. In the Cretaceous Flora (p. 54, Pl. I, fig. 12) Mr. Lesquereux describes an oval, oblong leaf, tapering from below the middle to a short, thick petiole, abruptly rounded, and undulate above. This he called *Phyllocladus subintegrifolius*. It was obtained from the Dakota sandstone near Decatur, Nebr. , and in the Upper Cretaceous rocks of Greenland leaves were found in considerable numbers which are apparently identical with this. They have been so considered by Professor Heer, who has figured and described them (Fl. Foss. Arct. , Vol. VI, Abth. II, p. 37, Pl. XLVI, figs. 1-11), and has given them the name of *Thinnfeldia Lesquereuxiana*, deciding that...
