

## Building with Stabilized Mud

By K S Jagadish

I.K. International Publishing House Pvt. Ltd., 2007. Paperback. Book Condition: New. 14cm x 21.5cm. Building construction using stabilized mud (soil) has been in vogue in different parts of the world for nearly six decades. However, the desirable practices have not been placed on a firm footing due to sporadic nature of the constructions. The situation is complicated due to the highly variable nature of soil as a construction material. This monograph is an attempt to summarise the best practices for the use of stabilized mud. It is essentially based on the experiences at ASTRA (Application of Science and Technology to Rural Areas) and Dept. of Civil Engineering. Indian Institute of Science, for more than three decades.
